DETAILED ACTION

Response to Arguments

1. Applicant's arguments, filed 04/12/2005, with respect to claims 1,3,4, 6-18, 20-22, 25 and 26 have been fully considered and are persuasive. The non-final rejection issued on 01/10/2005 has been withdrawn.

Allowable Subject Matter

2. Claims 1, 3, 4, 6-18, 20-22, 25 and 26 allowed.

3. The following is an examiner's statement of reasons for allowance: Prior art failed to establish an electronic assembly comprising a board, a plurality of contact terminals on an upper surface of the board, an electronic device including an integrated circuit, a plurality of contact pads on a lower surface of the electronic device each electrically connected to the integrated circuit, a plurality of standoff members each attached to a lower surface of a respective contact pad, a plurality of attachment layers each located on a respective standoff member, having a melting temperature that is at least 30 Celcius lower than a melting temperature of the respective standoff member and being soldered to a respective upper surface of a respective contact terminal at a select temperature between the melting temperature of the standoff members and the attachment layers so that the standoff members resist movement of the electronic device toward the board when attachment layers are melted and a capacitor mounted to the electronic device and prevented from contacting the board by the standoff members.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
